SUMMARY

Computer Engineering student interested in software development, web technologies, AI, and practical problem-solving. Familiar with Basic C, HTML, CSS, JavaScript, and Python, with hands-on experience through self-driven projects and academic bootcamps. Hobbies include playing outdoor sports and exploring new things.

EXPERIENCE

Project-based software development experience through academic and self-driven projects, including web applications, AI/NLP solutions, and smart automation systems. Experienced in turning ideas into functional prototypes, collaborating on hands-on bootcamps, and learning new technologies while developing practical, user-focused solutions.

SKILLS

- **5 Languages:** Basic C, HTML, CSS, JavaScript, Python
- **Frameworks & Web:** HTML, CSS, JavaScript; basic modern web development
- **AI / NLP:** Text summarization, sentiment & entity analysis, NLP fundamentals (via NLP Ignite Bootcamp)
- **Tools & Automation:** Git, GitHub
- **Other:** Problem solving, project development, teamwork

PROJECTS

AI News Summarizer

AI/NLP-based application that summarizes news and analyzes sentiment, named entities, keywords, categories, credibility, and bias.

GitHub: github.com/mayank018-tech/AI-News-summarizer

The Being Strong Fitness

Responsive fitness website presenting gym facilities, trainers, management, and other information through a modern web interface.

GitHub: github.com/Yug030806/The-BeingStrong-Fitness | **Live:** the-being-strong-fitness.vercel.app

Smart Warehouse Automation System

Smart warehouse platform simulating cargo movement with virtual AMRs, QR scanning, elevator floor transitions, A* pathfinding, live tracking, and telemetry.

GitHub: github.com/Yug030806/Smart-Warehouse-Automation-System

EDUCATION

Sardar Vallabhbhai Patel Institute of Technology, Vasad

2025 – 2028

Bachelor of Engineering – Computer Engineering / Currently studying Second Year

CERTIFICATIONS & ACHIEVEMENTS

NLP Ignite Bootcamp — Certificate of Participation

SVIT ACM Student Chapter, Computer Engineering Department, Sardar Vallabhbhai Patel Institute of Technology (SVIT), Vasad | 3 – 6 August 2026

Completed a 4-day hands-on bootcamp on Natural Language Processing organized by the SVIT ACM Students.
